

HIGHLAND LAKES
GOLF COMMITTEE JANUARY 2010 MONTHLY REPORT
ED OLIVER, CHAIRPERSON

The red course will remain open during construction of the new bulkheads which are scheduled to begin January 25. Alternate paths will be provided so that the carts can safely get around those areas while work is progressing.

All the floors were steam cleaned in the bathrooms

New drop area was added to Red #4

New equipment and people from Source One are in place and it was a very smooth transition

Golfers were observed on the course before 3 P.M. on Ladies League Day. Head Starter Jim Dunn informed them this was against the rules. Mike Davis, head ranger will make sure that a starter is in the Starters Building on Thursday by 2 P.M. to assure that no golfer gets on the course before 3 P.M. in accordance with our HL Rules and Regulations.

Paul Ilgen reports that the weather has been taxing his abilities to the maximum, but as soon as the temperatures warm up we should see the course return to normal playing conditions very quickly.
